Children under twelve years of age at the time of embarkation, five dollars less than the above; and infants under twelve months thirteen dollars less than the above named prices, to Boston or Albany, and other places in proportion; but we will not issue a pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.
The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions at sea according to the undermentioned dietary scale; also bedding and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and luggage from the ship at Boston, to the destination agreed upon.
In addition to any provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, once a week during the passage, commencing on the day of sailing, and at least three quarts of water per day:
Two oz. of Tea; 8 oz. of Sugar; 3 lbs. of Oatmeal; 9½ lbs hard bread; 1 lb wheat flour; 2 lbs rice.
Children under twelve years of age (not including infants,) are furnished with six pounds of bread stuffs per week, the usual allowance of water, and half allowance of Tea and Sugar.
As soon as our Liverpool House informs us per steamer of the names of *pre-paid* passengers embarked, we publish their names in the *Boston Pilot*, and also notify each purchaser of *pre-paid certificates*, either directly or through our agents.
On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary instructions regarding their route westward.
Bedding and utensils for eating and drinking, must be provided by passengers; and those going to the Canada, or Western States, must furnish their own provisions from Boston.
TRAIN & CO., of Boston, inform those who take an interest in the welfare of Immigrants, that in connection of the old LIVERPOOL and BOSTON LINE of PACKETS, they have determined that their Immigration business shall be conducted by the same house, on their own responsibility, and by themselves or their authorized agents.
In calling public attention to the subjoined list of the Ships which comprise our Boston Line of Packets, we believe that its general reputation as the "*Favorite Packet Line*" is sufficiently well known and established. The Thousands of Letters which have been sent by American Immigrants to their friends in every part of Europe, have borne ample testimony to the kind and successful attention made by those Ships, and to the superior Health, Comfort and Safety, which their passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.
Packet Ships which are Dispatched in this LINE:

These magnificent Shipsare ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST Class, being built on the most improved principles and of the best materials. They possess all the modern improvements in the way of health and comfort, as a superior system of lighting and ventilating, the very best Provisions, and a careful medical superintendence.
The Captains have been carefully selected as first-rate sailors and men of humanity, and every experienced Surgeon is attached to each Ship, and no expense is spared to render this the best and most popular conveyance to America.
All Ships will be towed to sea by such arrangements as Liverpool as will PROTECT their friends from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage with a responsible House, on favorable terms, for a well known Line of Magnificent Packet Ships; and in this way avoid the grievous, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with reputable Ships.
As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most exact fulfilment of all their engagements, we are permitted to refer to the very Rev. JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

From our New York Correspondent.

NEW YORK, Dec. 25th, 1853.

A great fire here which destroyed that noble specimen of naval architecture, the *Great Republic*—almost ready for sea, and which indeed was to have been hauled into the stream the very day of her destruction.—occasions more general regret than would have done the loss of twice or thrice as much property in any other shape. She was an experiment on a great scale, and the national feeling, so far as it can be represented by a sea board population, had enlisted itself in its success. If evil omen could deter the go-ahead impulse of our navy and people, such a misfortune might lead to the abandonment of the purpose which the enterprising builder of the *Great Republic* seems to have at heart, of ascertaining to what extent size can be carried, in a merchant ship, to secure greater safety, economy of navigation, and especially speed. Without the last quality, all others to our view and generation—a fast one altogether—would be comparatively worthless. Happily Mr. McKay is insured, so that his pecuniary loss will not be of any consideration—while his zeal and energy and partial success on this ship—for she had realized all expectations as to beauty of model—especially for cargo and, so far as could be ascertained from her buoyancy and easy passing through the water, as she was towed round to this city from Boston, for quickness—I shall not be surprised to hear in a few days that Mr. McKay is already at work upon a yet larger ship.

You will see with great satisfaction that Senator Seward has introduced into the Senate, a bill at once practical and fair, for the construction of a Rail Road from the Atlantic to the Pacific, on a Central or Northern line. This bill wisely avoids all undue squandering of the Public Lands, or putting untold millions of acres into the keeping and at the disposal of any great monopolizing corporation—and it provides, judging from a single look at it, safely and providently for the public interest, while holding out abundant encouragement to State corporations to undertake the work. It is clear from this bill that Mr. Seward has maturely considered the claims, the need and the absolute necessity, as I have so often maintained, of a Rail Road to the Pacific; and that he has devised a plan whereby private interests and public benefit may be harmonized and made to promote each other. I attach much importance to this movement, just in proportion to my settled conviction that no more imperative duty rests upon the Federal Government at this juncture, than encouraging the undertaking of such a road, and my dread of the various schemes of speculators to rob the treasury and wrong the public, for their own benefit and behoof, under the pretext of making a Rail Road to the Pacific. On this latter point, however, my fears are greater than my hopes, for the Third House—as those harpies are called, who at Washington beleaguer Congress collectively and individually, in their capacity of paid professional borers, or lobby members—will not readily submit to see themselves cut off, as Mr. Seward's bill cuts them off, from any chance of plunder. These people will find plausible objections of all sorts to *any* scheme which does not feed out a margin for their operations and consequent profit; and I am ashamed to confess the opinion—not lightly formed—that as Congress is for some years past been, and now is, constituted, it is far from *incorruptible*, or unwilling to share in the profits of the lobby. It concerns us all narrowly to scrutinise every vote, and every convenient absence when there is not courage to vote, of the members of both houses—but it especially concerns you of the West, of a Free West above all, to look well to your own representatives, and to impress them, by all proper instructions and demonstration, with the necessity of not squandering the Public Lands on corporations, and of not opposing a plan which gives additional value in proportion to the progress of the road, to all public lands along the line, and thus secures, in the most efficient way, an equivalent for any aid in the shape of Stocks which the Federal Government may make to the enterprise.

There is, there can be—under actual circumstances—no undertaking half so important to your region and the whole interior country around the Lakes, as the prompt and sure construction of a Rail Road to the Pacific; and to such prompt and efficient action there can be no more mischievous adversaries than mercenary lobby agents, or corrupt representatives. Let them be watched therefore, and made to understand that they are closely watched and will be held to strict accountability. This is an interest so much above any partizan interest, that all men of all parties should look to it, and combine to advance a common aim and common hope. If we are to remain a great undivided *Continental Republic*, extending from sea to sea, and filling up all the region between, we must have at the soonest possible moment, a Pacific and Atlantic Rail Road.

NEW YEAR'S DAY.—Monday was very generally observed as a Holiday in our city. The weather was bright and frosty; the sleighing excellent, and the streets throughout with sleighs of all sorts and sizes. The callers were not so numerous as in former years; the fine sleighing tempting many to excursions into the country. Among the most dashing "turn-outs" of the day was a pair of Shetland ponies, about as large as good size Newfoundland dogs, harnessed to a little cutter, and conveying some samples of "Young America," on their round of visits about town.

WISCONSIN CENTRAL RAIL-ROAD.—We learn from the Walworth County *Reporter*, that the Directors of this road, at their meeting last Saturday, located the road from the State line to Elkhorn and directed the President to advertise the letting of the grading, bridging &c. on the 1st February next. The *Reporter* says that this portion of the road will be immediately put under contract and will be speedily constructed.

SLEIGHING ALL OVER THE STATE.—Our exchanges from Madison, Chicago, Sheboygan, Green Bay, Fond du Lac &c., all speak of the sleighing as quite good in their respective neighborhoods.—The storm of Thursday last seems to have extended over the whole State; the snow having fallen to an average depth of five or six inches. It is a great matter for the Farmers.

FOX RIVER IMPROVEMENT COMPANY.—We learn from the Green Bay *Advocate* that this Company have located their Warehouse in the town of Howard, and that the Improvements will cost $10,000. The *Advocate* further states that Mr. K. A. DARLING, of Fond du Lac, has been appointed Treasurer and Secretary of the Company.

CHURCHES AT APPLETON.—The Appleton *Crescent* states that $2000 has been subscribed in that village towards building a Methodist Church, and that within the past week $950 has been subscribed for an Episcopal Church. The new Congregational Church will be completed and dedicated in a few days.

THE CRYSTAL PALACE.—The N.Y. *Tribune* states that it is now definitely settled that the Crystal Palace is to be a Permanent Institution, devoted to the Exhibition of industrial and artistic productions of all nations.

A NEW DEBUTANTE.—Miss Mary Ann Rice, daughter of Mr. J. B. RICE, made her first appearance as "Little Eva," at the Chicago Theatre, on Monday evening.

WORK FOR THE LEGISLATURE.

The Legislature of our state assembles on Wednesday of next week at Madison. So far as we know, the people have generally selected men of talent in their various walks of life to represent them at the Capitol, and we therefore hope to find that the weeks and months spent there will not be wasted. Although we say "months," knowing that the probabilities are, judging from past experience, in favor of a *three* months session, yet we think that six or eight weeks ought to be amply sufficient for all necessary purposes.

There are several subjects to which we think the attention of the Legislature ought to be early directed, and we proceed to notice them, as briefly as possible.

First of all, the Legislature will do a sensible thing by repealing the SMALL BILL LAW which went into operation on Monday. Small bills the people *must have*, for the convenient transaction of ordinary business. Our local banks do not and cannot furnish a sufficient supply of them; and were the law to be obeyed, in the present time of scarcity of silver "change," annoyances and vexations innumerable would be the result. But the law will *not* be obeyed, and we do not wish, and the people cannot wish, to have a law, involving no moral right, remain upon the Statute-book, to be violated daily and hourly. Therefore we hope to see a "small bill" introduced at once, containing, say, the words;

Sec. 1 Chap.——of the Laws of 1853 is hereby repealed.

Sec 2. This act shall be published immediately, and take effect from the date of its publication.

Our ASSESSMENT LAWS ought to be carefully revised: and with regard to this point, the sentiment among the people is well nigh universal. At present they are unequal in their operations, and are producing great dissatisfaction in various quarters of the state. What precise steps should be taken to remedy the evil we cannot say;—it is not our business to make laws. But we confess that we see no way out of the difficulty, except the adoption of some such law as that of Illinois copied from those of Connecticut and other eastern states, compelling each property-holder to make a valuation of his own real and personal estate, under oath, being liable to the pains and penalties of perjury as in other cases. Until something of this kind is done, we shall never have any equality in taxation, since assessors now seem to study how they can manage to obtain as small a roll as possible, rather than to get at the real value of property.

The PUBLICATION OF THE LAWS in all the newspapers of the state, is another subject which requires attention, and commends itself to the favorable consideration of the Legislature. A bill providing for such publication came near becoming a law last winter, but failed, in one house or the other, by a small majority. It is natural to suppose that the laws are made for the benefit of the people; and if so, what more proper and useful than that the people should early be informed of their provisions? But in how many cases *do* the people learn anything of these laws before a succeeding Legislature meets, perhaps to repeal them? Let them be published almost immediately on their passage, is the plain dictate of common sense, which we trust will be heeded this winter.

Our CRIMINAL LAWS need revision. So far as we have been able to learn, Wisconsin is worse situated in respect to these, than any other state of the Union. Murder stalks about unchecked in search of victims, and murderers walk about our streets unpunished. *Murder is a bailable offence in Wisconsin!* and that same sickly sentimentality which has abolished capital punishment, exercises its influences over the minds of witnesses and jurors to such an extent as, we fear, to tempt them to perjury, rather than to doom the villain even to the cell of a state prison. We have no expectation that the law providing capital punishment for capital offences will be re-enacted, though we think that another year's experience of our present law will bring about even that; and more, will bring about a state of public sentiment which will carry out its provisions.—If the law could be re-enacted, with a clause like that in the Massachusetts statute, providing for a year of imprisonment before execution, so as to give opportunity for the finding of missing evidence for the defence, we think it would be better. But, if we cannot have the law, and men sufficiently regardful of their oaths to carry it out let us have all the security possible for the lives of our citizens. Let not the murderer in open day go free, merely by the production of straw-bail!

It is high time that the subject of LAW REFORM received the attention due to it. Our Constitution contemplated the establishment of a reformed Code of Practice, but successive Legislatures have failed to do their duty in the premises. If the members of the Legislature about to meet shall deem the time propitious for entering upon such a work, we hope that it may be entrusted to men whose qualifications consist in legal ability and industry, and not given as a reward for party services to men utterly unfit to do the state credit and real good by the production of a Revised Code of Practice.

A GENERAL RAILROAD LAW is needed. Strange as it may seem at first thought—which first thought brings to mind the 15000 miles of railroad already chartered in our state—such a law is needed; and it ill becomes those who prate so much of *free trade* to oppose such an enactment. Wherever, in Wisconsin or elsewhere, the people of a certain section of country wish for a railroad (and where do they not?) expecting to build it either by their own means or by aid from abroad, we hold that they should have the privilege of constructing their road. And the fact that there one, or a dozen, or twenty dormant charters, with routes lying somewhere within the distance of 40 miles, or more or less, from the proposed route, ought not to prevent the building of a road where convenience dictates. The charter of a railroad company over a given route no more implies an obligation on the part of the State to protect that company from competition than does the charter of a mining or milling company imply that no one else shall dig for lead, or grind wheat, or saw lumber, within 5 miles of the incorporated company's property. Our Constitutional provision upon this subject is explicit, and *by their oaths of office*, legislators are bound to provide *general laws* wherever they are practicable; and special legislation is only legal when general laws will not enable companies to carry out their objects.—So we have general laws for the incorporation of Plank Road Co's, Cities, Villages, Cemetery Associations, Manufacturing Companies, &c., &c.

And we may as well say here that we regard it as the plain duty of members of the Legislature to reject all applications for special privileges—to throw them under the table at once—unless they ask for such aid as the general laws do not give. And if they ask for such aid, and it is deemed right that they should obtain it, let it be granted by an amendment to the existing general law, if there be such a law. If there be no such law, let it be provided without delay. A vast portion of of the time of our legislatures is occupied with special legislation, with which they have no business, being expressly prohibited by the Constitution from engaging in it.

The above are a few of the topics which seem to us to deserve the attention of the Legislature of 1854. We have said nothing of the Maine Law question, since, after the decisive vote of last fall, and the election of a considerable portion of the members upon that issue, it will, of course, occupy the consideration of the Legislature.—

We trust that, for once at least, members of the Senate and Assembly will take their seats resolved to act from convictions of duty and right, and not pledged to vote for or against certain measures at the beck of outside agencies. It is a humiliating position for a legislator, that of sitting in his seat like an automaton, to be played by a performer outside, at the hazard of self respect and reputation, and we hope that *this* Legislature may be free from such spectacles, which the last one presented daily.

A HINT.—Mr. Sanderson is now sending all his flour to Chicago in consequence of the high freight on the Milwaukee road. He tells us that he can haul by wagons to Beloit and then send cheaper into Chicago than to Milwaukee. The distance from here to Milwaukee by railroad is 70 miles; from here to Beloit 14 miles by wagons and then 98 by railroad into Chicago. We call this "a hint," and commend it to the attention of the Milwaukee directors.—*Janesville Gazette.*

As is quite usual, the above contains any reasonable number of misrepresentations. Mr. Sanderson has made arrangements, as he supposed, to send a lot of flour through by railroad from Chicago at remunerating rates, and had the teaming done very cheaply by Valley Railroad teams, otherwise lying idle. And he was in town yesterday making arrangements for sending his flour to this city as usual. We doubt not that the M. & M. R. R. Co is ready to meet any healthy competition from the Chicago route, even aided by the mulish opposition of a portion of the Janesville people.

THE CINCINNATI RIOT.—We notice that some of the Cincinnati papers are scoring the police with great severity for their cruelty shown in the late attack upon the Germans who were on their way to hang Bedini in effigy. The arrests seems to have been made entirely on the responsibility of the Captain of Police, the Mayor keeping out of the way. It may very well be that religious animosity excited the Policemen in some degree, but it seems probable that greater bloodshed would have resulted from an attempt to put down the riot at a later hour.

THE WHITTAKER SCREW WHEELS.—The Buffalo Express states that the steamer Baltic is to be changed into a propeller, and that she is to be fitted with the side screw wheels lately invented by Capt. Whittaker, the economy of which are becoming every day more apparent.

U. S. SENATOR FROM VERMONT.—A Washington despatch, of Dec. 30th, states that Judge Phelps, of Vermont, has again taken his seat in the U. S. Senate, claiming a right to it under his commission to fill a vacancy, the State Legislature having failed to choose a successor.

ANOTHER GREAT REPUBLIC.—It is said that Captain McKay has dispatched a message to Boston authorizing immediate preparations to be made for the laying of a keel of another vessel, to be built precisely similar in every respect to the plan of the *Great Republic*.

OWLISH.—The *Wisconsin, Sentinel*, and *Kenosha Democrat* attribute the stupidity of Hugh Drum and two or three others, to the abolition of the Death Penalty.—*Free Democrat.*

The *Sentinel* has done nothing of the sort.

SHORT ROUTE.—The last news from California came by the Ramsey route across Mexico, and Vera Cruz to New Orleans, bringing San Francisco papers through in 18 days.

TWO DAYS LATER FROM EUROPE.

ARRIVAL OF THE STEAMER ALPS,

Further Hostilities on the Black Sea—Defeat of the Turks—Great Loss of Life—Reported Escape of Smith O'Brien.

BOSTON, Dec. 30, P. M.,

The steamer Alps with advices from Liverpool to the 19th instant, arrived here this afternoon.

Commercial Intelligence.

Cotton continued steady, with a fair demand for the home trade and for export; and a large speculative demand for Surat, inferior and common. The stock at Liverpool was 847,000 bales, of which 251,000 bales were American.

Breadstuffs continued buoyant, but both Wheat and Flour was being freely offered, to arrive, and met with a ready sale.

Denniston quotes Western Canal Flour at 37s @37s 6d, and Baltimore, Philadelphia and Ohio 38s @38s 6d. White Wheat 10s 6d@11s, and Red and Mixed 10s@10s 6d per bushel. Corn 44 @45.

Gardiner says Beef sells slowly at previous rates. New Chicago sold with difficulty at 110s. Pork very dull. Lard heavy at 1s to 2s decline, and buyers still holding back for a further reduction. Cloverseed 2s per cwt lower. Naval Stores dull without sales. Rice dull. Sugar in improved demand at full rates. Coffee unchanged. Tea better at the close.

At London, Baring's report Breadstuffs firmer, at an advance of 2s per quarter on Wheat, and 1s per bbl on Flour, with a large demand for France.

Ten flat with eager sellers, at a decline of one half penny for cargo. Coffee in better demand.—Sugar closing firm, at stiffer prices. Money unchanged. Consols fluctuating considerably.

General Intelligence.

The latest advices from Paris report that the combined fleets had been ordered to enter the Black Sea.

The latest advices from Sinope say the Russians lost in the engagement, their largest vessels, and that the town was totally destroyed.

It was reported that a Russian naval force, with six thousand troops aboard, had been repulsed at Chiftiken, in Asia, one Russian steamer destroyed a frigate dismasted, and 1500 Russians killed.

Another engagement is reported near Abasa, between a Turkish steamer and a Russian frigate and brig, the latter withdrew in a shattered state.

The Russian manifesto of November 1st, caused great excitement in Greece, causing the Greek government to adopt precautionary measures.

The United States frigate, St. Louis, arrived at Alexandria on the 25th November.

It was reported at Vienna that a combined Russian and Prussian army was about to march upon the Turkish province of Erzeroum.

The defeat of the Turks at Sinope caused great consternation at Constantinople. The Grand Divan at once assembled, at which all the Foreign Ministers were present.

The report that the combined fleets had entered the Black Sea, by the last steamer, was incorrect, but it was thought the whole allied fleet would soon do so.

The carnage at Sinope was immense.

The Russian Consul at Servia has denounced Prince Alexandria of Sarvia, as a secret adherent of the Porte, and the elders of the various districts had held a meeting and resolved to watch the movements of Alexander.

It is reported that Rodgenwitch, the late Secretary of Prince Gortchakoff, had been shot at St. Petersburgh, charged with conspiring with the Turks.

A Russian insurrection in Armenia is reported. Some of the London papers intimate that a disagreement in the British Cabinet, on the Eastern question, caused Lord Palmerston to resign.

The Russians have gained a battle on the Armenian frontier, in which four thousand Turks were killed.

The Turks had captured Acksaleich; also, the important fortress of Alexandroples.

Schamyl, the Circassian leader, and Selim Pacha are gradually approaching each other, taking the Russian fortresses on the line of march.

Schamyl had captured six fortresses, after hard fighting with the Russians and heavy losses on both sides. He also had defeated 15,000 Russians under Gen. Orlianoff.

Another engagement took place on the Black Sea, between Russian vessels and three Turkish Steamers, two of them escaped and the other was blown up by the commander rather than surrender.

The Russians fired into a Turkish brig near Odessa, and sunk her, and all on board perished. Two powerful Turkish steamers left the Bosphorus on the 2nd.

It was reported that Smith O'Brien had escaped from Van Dieman's land.

☞ We last night received the *Milwaukee Daily Sentinel*, of yesterday morning's date, filled with the most important news from all parts of the world, and improve the earliest opportunity of laying a portion of it before our readers. In this connection we cannot but tender our thanks to the enterprising publishers of the *Sentinel* for their kindness in thus forwarding us their Daily when it contains any interesting news, and trust those of our business men who do not now take it, and wish to keep posted up to the mark, will not delay longer, for it is far ahead of any other paper in the State in this respect.—*Beaver Dam Rep. Philadelphia, Dec. 31.

The meeting last night of National Democrats opposed to Gov. Bigler's nomination was attended by over 1000 persons. Resolutions were adopted deprecating the interference of federal officers in State or local elections; condemning dictation on the part of Cabinet Officers; denouncing Gov. JANUARY THAW.—The weather has moderated rapidly since the cold snap, Sunday night, and was so mild, yesterday afternoon, that the snow melted away under its soft breath, and the eaves began to drip. We shall need another touch of Jack Frost, or a fresh supply of snow, to keep the sleighing good.

Males	28
Females	5
Total	33

The greatest number imprisoned at any one term during the past year is 42.

Among the prisoners have been children of both sexes from the ages of ten years to sixteen, most of them committed for petit larceny.

The general health of the prisoners has been good. Most of the cases in which physicians have been called were for diseases that were contracted before their commitment.

There have been two deaths, one of delerium Tremens, and one of Erysipelas.

It is to be wondered at that there has been so little sickness, when it is taken into consideration that during a great part of the time from thirty to forty prisoners have been crowded into a jail calculated to accommodate only about twenty-four.

P. S. Patrick McDonald, whose sentence of death has been commuted by the Governor to imprisonment in the States Prison during life, was this day taken to Waupun by Sheriff Page, making sixteen in all that have been sent from this jail during the past year.

BUSINESS AT DEPERE.—In compliance with a request made by ourselves, Mr. F. E. White, Collector of Customs at the Port of Depere, has kindly furnished us with the following statement for publication:

COLLECTOR'S OFFICE,
DEPERE, Dec 24th, 1853.

Mr. ROBINSON.—As I have been desired to make a statement of the amount of business done at this office during the past season, I send you the following skeletons of a report. The books exhibit a decrease in the receipts on passengers, merchandize, machinery, molasses, sugars, wool, grain, spiritous liquors, and a great variety of other articles; while there is an increase in the gross receipts for this season of nearly one hundred dollars over those of any previous year.

Steamboats Cleared,	272
Passengers,	2,002
Keel boats,	80
Cast and wrought iron, tons,	740
Flour, barrels,	2,435
Total receipts for this season,	$109 01

The main cause of the decrease mentioned above is to be attributed to the unusual low water during the months of September October, and November when nearly the whole travel and business took the land route. In addition to the above exhibit, there has passed four hundred tons of merchandize, machinery, &c., free of toll.

Respectfully, F. E. WHITE, Collector.

REVIEW OF THE MARKETS.

FOR THE WEEK ENDING JAN. 3

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, January 4th, 1854.

RECEIVED BY RAIL ROAD, Dec. 31st and Jan 2d: 2,874 bus wheat, 98 do. beans, 590 do barley, 225 do corn, 170 do oats, 30 do rye, 197 hogs, 12 hides, 292 bbls and 16 sacks flour, 11 bags corn meal, 14 bbls highwines, 1 box candle.

Business the past week has been generally good, and with the country much better than for some weeks previous.—Receipts of produce have been considerably increased; owing partly to the better state of the roads, and partly to the operation of favorable eastern news upon the markets here, which have kept prices at a good figure.

The trains on the Mil. & Miss. R. R. have commenced running to Stoughton, within 16 miles of Madison, where depots of produce have been for some time established awaiting the arrival of the cars, and the receipts, in consequence, may be expected to exhibit an immediate increase.

Eastern buyers are beginning to show themselves in market. As a new item in the produce trade, we may notice several sales made so go to Montreal on the opening of navigation.

Pork has come in more freely during the past week, and prices for some days have been stationary at our quotations. The market is in an uncertain state, however, and buyers are cautious.

We canuot our usual Price Current, corrected to date.

MARRETS.—Packing 35@36c; Flour 35@38, and fair demand.

BUTTER.—We quote at 12@14c for firkin. Prime table butter brings 16@18c.

CANDLES.—Mould 13@14—Star 25c ₱ lb ₱ box.

CHEESE.—Hamburg 10@11c ₱ lb.

COAL.—Lehigh $15,00—Cleveland 6,50. Blossburg 12,00.

COFFEE.—Java 13@14c—Jamaica 11c—Laguayra 11½@12½—Rio 11½@12½—St. Domingo, do.

COPPER.—Sheathing and Bracier—3,87.

FISH.—Cod $4,50@5,00—White $7,00@7,50—Mackerel, No No. 1 bbls 14,50@16,00, half do 8,00.

FLAX SEED—$1,00 ₱ bush.

FLOUR.—The Mills have manufactured 1200 bbls during the past week, and 767 have been received from the country. Superfine, $4,50@4,75; Extra, $5,00—at retail 25 cts more. Buckwheat $2,00 per hundred. Corn Meal $1,50. Rye Flour $2,50.

GRAIN.—Wheat materially advanced, and we note sales of good club and mixed at 86@1,00, white winter bringing $1,00@1,03. Common spring 80@84. We hear of a sale of a boat load of Milwaukee wheat in Buffalo at $1,38 per bushel.

Barley is in good request at 57½@60; white at 60.—Rye taken at 56@58c, and Oats in demand at 27@29 cts.—Offers were made yesterday to contract for 10,000 bush at the latter figures.

CORN.—32c in the car, 35 for shelled.

POTATOES 30@35c

HAY.—We quote at $8,50@10,50 per ton.

HOPS.—Nothing doing—new worth 35@40.

HIDES.—In active demand. We quote at 4½c for well trimmed green, and 10½@11c for dry. Calf green untrimmed 7c—trimmed 9c; dry 12½@13c; Kip dry, 10@12½c

IRON.—American bar, or Ninary sizes 4x1½, English do sizes 3¾x1—American shoe shape 8½x½, Band and scroll 8½x½, Swedes 5,00@6,00. Sheet No. 24 common 7 per lb Scotch Pig $18@$20—Rossie $25@$27.

Considerable activity prevails in the Iron market, caused by recent advices being received of an advance some $10 per ton in New York and other markets, and prospects of high rates in the spring. Our dealers are very firm at present quoted rates and say that an advance here will probably take place soon.

The increased and increasing demand for Iron for the numerous manufacturing purposes, aside from the great call for all Railroads in progress, must keep this article at about its present high rate, comparatively, for some time to come.

English advices also quote great activity in their markets, and an advance and no diminution in the demand, in consequence as we are more or less dependent upon them for our present supply. It has its effects to keep the Iron markets in this country not only unsettled, but at high rates. We shall probably quote higher rates next week.

LEAD—bar $5,50@$7,00—shot $2,00, 1,81 at wholesale.

LEATHER—Sole Spanish hemlock 18a22c, common slaugh ter 18a20c—light slaughter 22c—harness 23—calf 75@ $7,75 per lb—upper $28@35 per doz.

MOLASSES—N. O. in bbls, 31a37. Cuban do 30—sugar house syrup in bbls, 50c—Golden Syrup in do .60c, in half bbls 63, in keg 65c.

NAILS—We quote all brands $5,00—assorted from 4d to 40d—3da6,00

PAINTS &c.—Thompson's pure grd. in oil 8c; do extra do 10c; do No. 1. do do 8,00; St. Louis; same for pure, 8,00 for extra, 6,50 for No 1. 50 lbs turpentine—by bbl 87½@90—white oil winter refined 85a0; Rossed oil 75 by the bbl—Lard oil 87½@90.

PROVISIONS—Pork has come in freely, and been taken by packers and for home use, to the extent of 2,500 to 3,000 hogs per day, at 3,50 for hogs under 200 lbs., $3,75 for weights from 200 to 250 lbs., and $4,00 for overweights.—We note sales last week of 1,000 bbls Mess at $10,50, and 1,000 bbls. on private terms for the East rie. Montreal.—Also a sale yesterday of 1,000 bbls at ——

Poultry 6c. per lb.

OTHER FOOD MARKETS.—We give below extracts from our latest exchanges relative to the ruling rates for pork in several of the leading markets:

TERRE HAUTE, IA.—Hogs—The Hog market opens this week with a better prospect for sellers. In this city buyers are paying freely $4 per hundred, and, probably, in some instances a shade higher. A gentleman purchasing hogs for Madison informs us that he is paying $4 for all he can get.

Deacons' and Ministers' Children.

At the New England Dinner, in New York, over which Moses H. Grinnel, Esq., presided, and which was enjoyed at the Astor House, the Rev. Henry Ward Beecher, responded most humorously to one of the Toasts. The following is a specimen of his oratory upon that occasion;

I have observed sometimes that mountains were exceedingly rugged when we were on them, but when viewed at a little distance, blue in the light of the Autumnal sun, there was no ruggedness; and thus it is that we look back upon Old New England's customs. Her Sabbaths—we shall never have them again. I cannot but think of those Sabbaths, where the clear sun light illuminated the day, so quiet and still; when the sound of the church bell was the only sound that could be heard. They were pleasant days, that catechised boys may have painful reminiscences connected with the subject. I have had myself some painful remembrances upon that point;—and yet, after all, if I were asked what of all things had made the deepest impression on my memory I should say a New England Sabbath morning. I do not say that I should relish these old ideas of churchgoing and sitting for two mortal hours of a winter's morning without a fire in the room—for a stove in a church, in those days, was unconsecrated to be a desecration, even if such a thing as a stove was then conceived of. But they had what they called a Sabbath-day house. I recollect that they had one in Salisbury, Conn. though it has since been put to other uses. There, after church, the members of the flocks would repair, and eat their gingerbread and doughnuts, preparatory to taking a second meal of a sermon.

When it was first proposed to introduce stoves in the church of my native place, Litchfield, Connecticut, there was a violent opposition made to it. A man said to one good old deacon—Trowbridge, I call him:—"Deacon Trowbridge, why do you object to a stove?" "Cause its desecration." said the deacon. "Well," said the man, "but does not Aunt Polly (that was the Deacon's wife,) bring a foot stove with her?" "Well I never thought of that," said the Deacon;—the question was settled, and it was agreed that it was right to have a foot stove it was right to have a stove all over. I can give it as my belief that the descendents of the New England clergy—the company excepted—are worthy of their ancestors. [Applause and laughter.]—Lest it may be thought that I have taken a little in a evening, I call upon all to bear witness that I have drank nothing stronger this evening than cold water and hot coffee! [renewed laughter.] thought it is my own fault.

It has been a maxim, that ministers' and deacons' children are worse than any others. The Greeks express a similar opinion. I was informed by my Greek Teacher—(who, I may say, earned his money for the services rendered)—that it is said in Greece, that 'ministers' children are the devil's grandchildren.' I don't believe a word of it. I know who my grandfather was, and I am bound to say that ministers' children are the best sort of children—that is, if they are children of good ministers. [Applause & laughter.] I have in my hand a letter that was sent to me sometime since, and which contains some facts bearing upon this matter. In Connecticut, of 937 children over 15 years of age, of 207 ministers and deacons, only 20 turned out badly; I suppose because they were not much in the habit of attending public dinners. [Renewed laughter.] In Massachusetts, out of 433 families of ministers and deacons, there were 1,568 children over 15 years, and only 200 ever became dissipated. Here we have 40 out of 2,535 children, and some of my friends, who are used to figures, say that this is just 2½ per cent. in the whole number. [Laughter.] Now, gentlemen, I would ask you if any grazier who was breeding cattle would not be glad to lose only 2½ per cent: of his stock? Laughter.] I will ask any business man if he would not be glad oftentimes if his losses were 2½ greater than 2½ per cent.? I undertake to say that no business has ever been so safe a one as that of raising deacons' and minister's children in New England.—[Laughter.] There is one thing more that I wish to mention before I close, and it is that while ministers are generally exceedingly talkative, ministers' children are both modest and taciturn. It is on that account that I am unable to extend my remarks any further at this time. [Tremendous applause and loud laughter.]
